Dear Peter & David

I wish to say thank you for being our builders and I want to let you know how much I appreciated what you have done for us. I enjoyed working with you and your team as well as your sub-contractors. I found them all to be very professional people. You made my building experience fun and rewarding, taking away all the pressure and I really appreciated that.

It was a pleasure to have such positive and willing people around me, that always did what they said they would do. I never had to worry and if I needed advice you always had the contacts and knowledge.

You recommended I get an architect during our first visit. I am thankful that you arranged for me to meet a couple. I feel that this was money well spent. James knowledge and support was incredible and he was always there if I asked questions, even after his job was complete. Once again James professional attitude was very worthwhile. Every day I admire the incredible views and I am so pleased I built.

Jenny the interior designer made our home a stylish yet practical home to live in. One I am truly proud of. Thank you for the contact. I had a wonderful time.

I like the way you hand deliver the invoices and go through it with the client. It is always set out neatly, clearly and easy to understand. No hidden surprises.

I wish you well for the future and just want to let you know how much I appreciate you and your team building our family a home. We all feel very safe and happy here. Thank you so much!

Kind regards

Marlene Wray
